LEVEL I LOW WATER CONDITIONS
Upper Watershed Only

Credit Valley Conservation
1255 Old Derry Road, Mississauga, ON, L5N 6R4
Telephone: (905) 670-1615

Date: August 11, 2021

Based on precipitation and streamflow data for the period ending July 31, 2021, CVC has confirmed that the Upper Credit River Watershed remains in Level I Low Water Conditions. Island Lake levels are historically low and will continue to drop through Fall of 2021 (more information about water levels at Island Lake).

Level I Low Water Conditions have been cancelled for the entire West Credit River, Middle Credit River Watershed, and Lower Credit River Watershed.

Watershed Portion	Location	Low Water Status
Upper	Mono to Forks of the Credit	**Level I Low Water (*excluding West Credit River)**
Middle	Forks of the Credit to Norval	**Normal**
Lower	Norval to Port Credit	**Normal**

CVC continues to closely monitor precipitation and streamflow data and assess low water conditions. This current update is in effect through August 31, 2021 or until further notice.

Note to Public: For more information about this message please call CVC between 8:30 and 4:30 (Monday to Friday) at 905-670-1615 and ask for the Flood Duty Officer.
