## Estimated Costs

	<b>Cost Estimate</b>	<b>PRWQP Grant</b>
Barnyard runoff control		
Clean water diversion		
<b>TOTAL</b>		

## Site Plan

Please provide a sketch showing the location and dimensions of the existing situation and the proposed project using the air photo provided by Program Staff. Include farm buildings, distance to and location of tile drains (identify perforated and non-perforated sections), catchbasins, and wells. Also include any other information that you feel is important.

## Terms and Conditions

1. I/We understand that I/we will be responsible, in cooperation with any hired contractors, engineers, and consultants, to ensure that the practices and structures undertaken are suitable to the operation and are structurally and technically adequate and to ensure that all approvals, permits, or other requirements under applicable laws, regulations, and by-laws have to be obtained prior to construction.
2. I/We understand that the information and photos provided with this application is collected by the Peel Rural Water Quality Program staff for the sole purpose of project administration. This information will be used by Conservation Authorities, the Peel Agriculture Advisory Working Group, and other funding agencies for project approvals, reporting, and a database of Peel Rural Water Quality Program projects and may be made public as required by law.
3. I/We understand that if approved, the project must be completed and paid in full prior to receiving the Peel Rural Water Quality Program grant. I/We also understand that I/we are responsible for reporting any grant income to the Canada Revenue Agency.
4. I/we understand that if approved, the project must be maintained for the intended purposes for which it was designed for a period of not less than five (5) years. I/We also understand that any modifications to the approved design need to be authorized by Peel Rural Water Quality Program staff and failure to comply with all program requirements may delay processing of the application, render the application ineligible for funding, or result in repayment of the grant.

- 1)  I/we have read and understood the terms and conditions outlined above and certify that the information contained in this application and any supporting documentation is true and complete to the best of my/our knowledge.
- 2)  I/we have or  will have a deemed appropriate Ontario Environmental Farm Plan.
- 3)  You have my approval to put me on the CVC/TRCA mailing list to receive information and newsletters on other programs

Please provide a sketch showing the location and dimensions of the existing situation and the proposed project using the air photo provided by Program Staff. Include farm buildings, distance to and location of tile drains (identify perforated and non-perforated sections), catchbasins, and wells. Also include any other information that you feel is important.

## Terms and Conditions

1. I/We understand that I/we will be responsible, in cooperation with any hired contractors, engineers, and consultants, to ensure that the practices and structures undertaken are suitable to the operation and are structurally and technically adequate and to ensure that all approvals, permits, or other requirements under applicable laws, regulations, and by-laws have to be obtained prior to construction.
2. I/We understand that the information and photos provided with this application is collected by the Peel Rural Water Quality Program staff for the sole purpose of project administration. This information will be used by Conservation Authorities, the Peel Agriculture Advisory Working Group, and other funding agencies for project approvals, reporting, and a database of Peel Rural Water Quality Program projects and may be made public as required by law.
3. I/We understand that if approved, the project must be completed and paid in full prior to receiving the Peel Rural Water Quality Program grant. I/We also understand that I/we are responsible for reporting any grant income to the Canada Revenue Agency.
4. I/we understand that if approved, the project must be maintained for the intended purposes for which it was designed for a period of not less than five (5) years. I/We also understand that any modifications to the approved design need to be authorized by Peel Rural Water Quality Program staff and failure to comply with all program requirements may delay processing of the application, render the application ineligible for funding, or result in repayment of the grant.

- 1)  I/we have read and understood the terms and conditions outlined above and certify that the information contained in this application and any supporting documentation is true and complete to the best of my/our knowledge.
- 2)  I/we have or  will have a deemed appropriate Ontario Environmental Farm Plan.
- 3)  You have my approval to put me on the CVC/TRCA mailing list to receive information and newsletters on other programs.
