

Construction Project Notice

Turtle Creek Bridge and Boardwalk Reconstruction

Access to Rattray Marsh Conservation Area from Jack Darling Park to be

Closed: Monday, March 2nd to Friday, March 20th

Please use alternate access at Bexhill Road during construction period

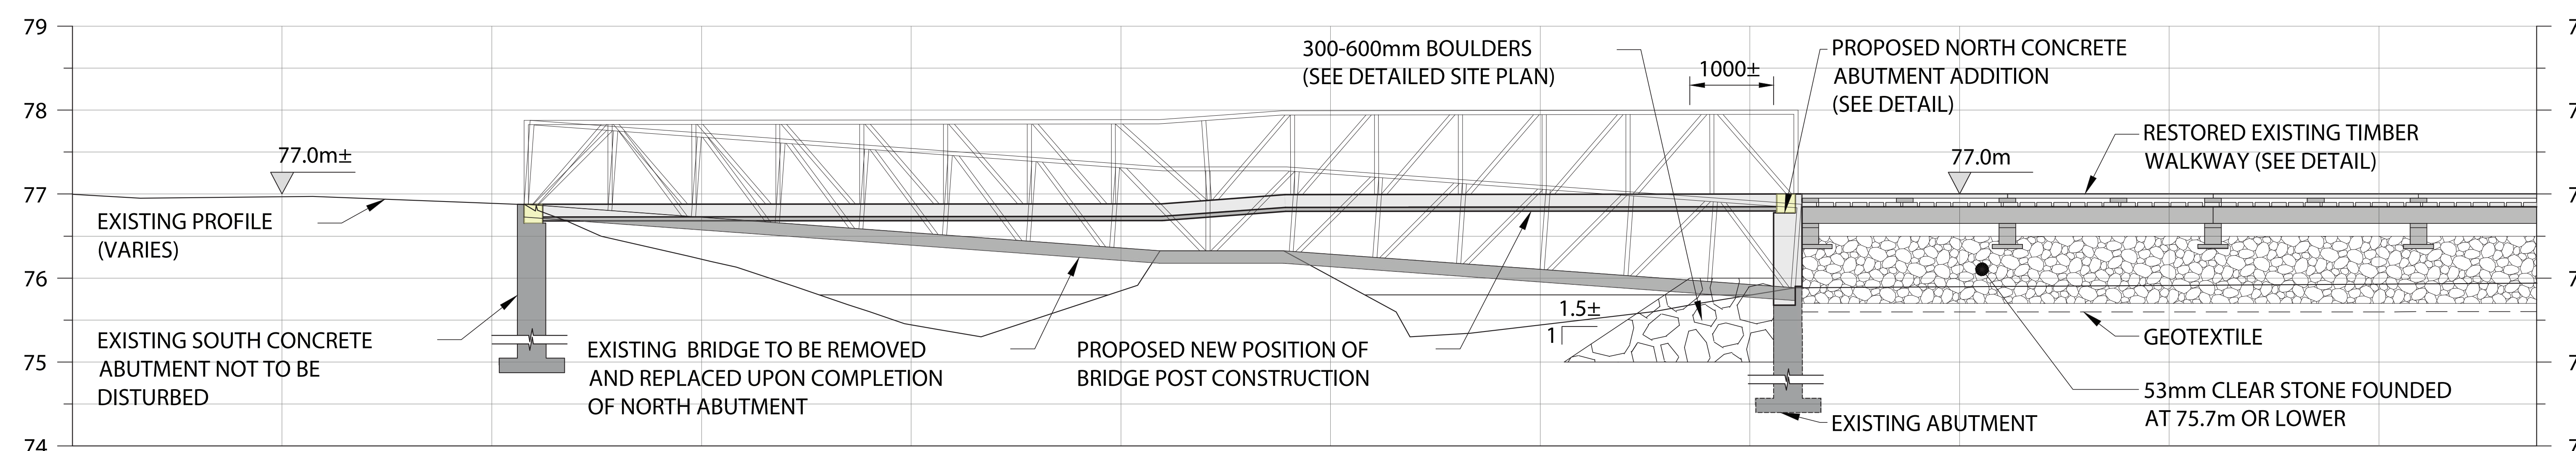

Project Description:

The northeastern elevation of the existing steel bridge at Turtle Creek will be raised to a safe level above flooding. The existing boardwalk between the bridge and Jack Darling Park will be replaced and protected with a flood-proof and climate-resilient stone armouring solution that will reduce maintenance costs and long-term closures.

Waterfront Trail Alternate Route:
