

## **Keeping You Safe During Your Park Visit**

We're committed to keeping everyone safe and healthy as we undergo a staged re-opening of our properties that coincides with provincial phases to re-open business.

Here are a few tips from our staff that you can practice while at our parks.

### **Do: Consider contactless methods of payment.**

- When you arrive at the park consider an annual membership or use online payment for contactless entry.
- Debit and credit card purchases using tap are also great.
- Use cash only if you have no other option.
- Be patient and prepare for extended wait times while we process you safely.

### **Do: Practice physical distancing and take other steps to prevent COVID-19.**

If a park is open for public use, please follow these guidelines when visiting:

- As much as possible, stay 6 feet apart.
- Yield to oncoming traffic on bridges and boardwalks.
- Limit group sizes and gatherings to meet the Province of Ontario restrictions.
- Bring hand sanitizer to use when soap and water are not available.
- Respect all signage, facility closures and no parking areas.

### **Do: Keep your dog on a leash and close by.**

- Keep your dog at least 6 feet away from other dogs and people.
- Avoid petting dogs that aren't yours. Fur could be a transmission point for COVID-19.

### **Do: Prepare before you visit**

- Some parks may remain closed and some may limit the number of people allowed to enter. Some parks may have additional guidelines to follow for everyone's safety.
- Plan ahead. Have a backup plan if your first choice is crowded or unavailable.
- Limit your stay. Leave time for others to visit while reducing the number of people onsite at one time.

### **Don't: Visit parks if you are sick or were recently exposed to COVID-19**

- If you're sick, feel unwell or were exposed to COVID-19 within the past 14 days, please stay home.
- If you've travelled outside of Canada within the past 14 days, please stay home.

### **Do: Visit parks that are close to your home**

- Most long-distance travel requires a stop along the way and increases your contact with others. This may increase your exposure to infected people or surfaces contaminated with COVID-19.

We encourage you to visit our website often to learn about the latest actions we're taking to help keep you safe during your visit.

**Let's all remember to do our part to keep everyone safe.**
