**Please Note:** Conditions may have changed since trails were last assessed in 2016. The estimated hiking time of an adult of average fitness at moderate pace is 1 kilometre every 15 minutes. This is a general guideline only; please allow more time for challenging terrain, various fitness levels and rest periods.

### CVC TRAIL RATINGS

**Easy**  
Trail is generally flat with wide turns, and may have some gently rolling sections. Surface is firm and stable. Obstacles such as tree roots and rocks are few and avoidable, with minimal to no use of stairs. Some experience recommended.

**Moderate**  
Trail has some short, steep rises with sharp turns. Surface is generally hard-packed and may include some sections with loose material. Unavoidable obstacles and some stairs may be present. Some experience recommended.

**Difficult**  
Trail has long, steep climbs with sharp turns. Surface is generally hard-packed; likely includes sections with loose material or unstable surface. Unavoidable obstacles and stairs are likely present. Experience recommended.

**Strenuous**  
Trail has long, steep climbs with sharp turns and may have minimally clear sightlines. Surface is generally hard-packed; sections with loose material or unstable surface are very likely. Unavoidable obstacles and stairs are common. Experience required.

Assigned trail ratings are a guide only. Users must assess their own technical ability in combination with their own fitness level, before making a choice to enter onto any trail on a property.
