Re:	Conservation Authorities Act Transition Period Progress Report #1

The following progress report summarizes work to date by Credit Valley Conservation (CVC) in fulfilling the requirements of the Conservation Authorities Act transition period phase two as required by Regulation.

Comments or other feedback submitted by a municipality regarding the inventory

As of February 2022, Credit Valley Conservation has circulated a draft inventory of programs and services to all participating municipalities.

To date, since finalizing the inventory of programs and services in February, CVC staff have met with staff from most participating municipalities to discuss the transition period, regulatory requirements, and CVC's inventory:

- Peel – March 16 & April 27 (Update with Kealy Dedman)
- Halton – March 28
- East Garafraxa – April 25
- Amaranth – April 26
- Mono – May 3
- Orangeville – May 30

The meeting with the Town of Erin staff is scheduled for June 27.

Informal feedback from participating municipal staff has been supportive and staff do not plan to make any changes to our inventory of programs and services at this time.

CVC staff will keep the Board informed of any updates on this matter and provide a copy of CVC's first progress report at the July Board meeting and quarterly going forward.

- (a) a summary of any changes that the authority has made to the inventory to address comments or other feedback referred to in clause (a);
- (b) an update on the progress of negotiations of cost apportioning agreements with the participating municipalities; and
- (c) an outline of any difficulties that the authority is experiencing that might affect the ability of the authority to conclude any cost apportioning agreements with one or more participating municipalities by the transition date.

Transition Period Quarterly Progress Reports

As prescribed by Regulation, through this transition period CAs are required to submit six quarterly progress reports to the Ministry beginning on July 1, 2022. The reports are required to include:

- (d) any comments or other feedback submitted by a municipality regarding the inventory;
- (e) a summary of any changes that the authority has made to the inventory to address comments or other feedback referred to in clause (a);
- (f) an update on the progress of negotiations of cost apportioning agreements with the participating municipalities; and
- (g) an outline of any difficulties that the authority is experiencing that might affect the ability of the authority to conclude any cost apportioning agreements with one or more participating municipalities by the transition date.

Staff are currently drafting CVC first quarterly report, structured based on the four requirements above, in consultation with neighbouring CAs. These progress reports will be shared for information with the Board going forward as either a briefing note or Board Report depending on the extent of the progress to be reported on.
